Filtro sfiato aria

Air filter

i filtri sfiato aria si montano sui serbatoi per filtrare l'aria che entra a compensazione della variazione di volume del fluido. Si montano inoltre sull'aspirazione di compressori e motori a scoppio.

Disponibili con attacchi filettati Gas.

Gli elementi filtranti sono rigenerabili in rete vellutata, con grado di filtrazione standard 40 Micron.

Air filters are mounted on oiltanks with the aim to filter the air.

They are also mounted in suction of compressors and engines.

Available with BSP threads.

Replace elements are regenerated in velvet net in 40 Micron.

CSA

Filtro sfiato aria Air filter

i filtri sfiati aria serie CSA si montano sui serbatoi per filtrare l'aria che entra a compensazione della variazione di volume del fluido.

Sono costituiti da una cartuccia SPIN-ON da avvitare ad un supporto da saldare o flangiare al serbatoio.

Air filters are mounted on oiltanks with the aim to filter the air.

They are formed by a SPIN-ON replace element to screw to a support to be welded or to be flanged to the oil tank.
